Summary

Front-End Developer with 1+ year of hands-on experience building responsive web applications using React and Next.js. Experienced in integrating RESTful APIs, managing state with React Query, Context API, and Redux Toolkit. Focused on writing clean, maintainable code with attention to performance, SEO, and user experience

Professional Experience

Frontend Developer   Jan 2025 – Present

Petra Project Management | Remote

- Developed and maintained front-end applications for company-managed projects
- Delivered scalable and maintainable user interfaces using React, with exposure to Next.js.
- Collaborated with project managers and stakeholders throughout the development process

Frontend Developer   Jun 2024 – Jan 2025

Freelance

- Worked on projects across multiple domains, including education, e-commerce, marketing, and trading platforms.
- Built responsive and SEO-friendly web applications for different clients
- Collaborated directly with clients to gather requirements and deliver solutions
- Focused on performance, accessibility, and modern UI/UX practices

Frontend Developer   Mar 2024 – Jun 2024

Dr Code | Internship

- Worked on building responsive web interfaces using HTML, CSS, JavaScript, and React
- Collaborated with UI/UX designers to implement responsive and user-friendly interfaces
- Practiced integrating RESTful APIs and handling asynchronous data using modern JavaScript patterns

Personal Projects

Ma3aak - Teacher marketing platform   **Live**

- Built and maintained the frontend application for a multi-service teacher marketplace using Next.js
- Integrated frontend flows for PayPal payments, handling checkout and transaction status
- Implemented advanced search and filtering for services and listings
- Developed Admin Dashboard application using React for managing platform content and operations
- **Technologies**: Next.js, React, React Query, Zustand, Axios, React Hook Form, Yup, Socket.io

Dababat - Motorcycle marketplace platform   **Live**

- Built and maintained a frontend marketplace platform supporting user authentication, ad management, service listings, and real-time chat between users
- Developed a secure Admin Dashboard for managing users, advertisements, and platform operations
- Implemented Google authentication, role-based access control, and secure user management
- Integrated real-time communication features using WebSockets
- **Technologies**: React.js, Tailwind CSS, Axios, React Router DOM, Formik, Yup, Socket.io, Chart.js

Clickat - Marketing & Advertising platform   **Live**

- A regional digital advertising platform where users submit detailed campaign requests, pay through PayPal and direct links.
- Offers a two-language interface (Arabic and English) to serve a wider market base.
- Includes an admin dashboard for managing campaign requests, tracking progress, and handling platform operations.
- **Technologies**: React.js, Tailwind CSS, Axios, React Router DOM, React Query, i18next, Chart.js

Waqt Al-Siyana - Car maintenance reminder platform   **Live**

- Developed a car maintenance reminder platform tracking upcoming service needs (oil changes, filters, battery, tires) and supporting payments via Moyasar.
- Implemented user profiles, service history tracking, and automated scheduling of reminders.
- Integrated a chatbot for user support, a dark/light mode toggle, and a secure Admin Dashboard.
- **Technologies**: React.js, Tailwind CSS, Axios, React Router DOM, Formik, Yup, Fuse.js
